Dedication to Special Education has installed this water sculpture in the heart of The Village at Corte Madera. The sculpture is a creation and donation by renowned designer, Archie Held. It is a masterpiece symbolizing and celebrating the alliance between educators, families, community and corporations working together for one cause—*helping children with special needs in Marin County reach their potential in living and learning.*

We invite you to be a part of this exciting community project by purchasing an engraving which will adorn the sculpture. You will have the opportunity to dedicate your space, honoring a loved one or adding your family's name to the many who have come together in support of the children.
